

Lovely Nails

You'll want your nails to look their very best on your wedding day. Never again in a single day will so many people ask to see your hands (to say nothing of the formal photographs to follow).

Consult a qualified nail technician well in advance to begin a routine of nail and hand care. Nails properly manicured add a lovely "finished" look. If growing strong, beautiful nails is not your forte, nail extensions, or nail tips may be professionally applied to look very natural.

Choose a soft color nail polish to complement your skin tones. A French Manicure gives a natural healthy glow with pink nails and delicate white tips.

It is best to have your manicure the day before your wedding - allowing plenty of time for your nails to dry. Be sure to buy a bottle of matching polish in case of a mishap. Ask about a pedicure to look your best from "tip" to "toe"!
